ILC Workshop - ECFA and GDE Joint Meeting

Wednesday 8 November 2006

QCD+top: I - ADEIT - Sala Grados (09:00 - 10:45)

time	[id] title	presenter
09:00	[96] Two-loop Bhabha scattering and luminosity determination at e+e- colliders	Dr PENIN, Alexander
09:20	[97] Dimension-six top-Higgs interaction and its effect in collider phenomenology	Dr TSUMURA, Koji
09:40	[98] Complete Higgs mass dependence of ttbar threshold production to order alpha alpha_s	STEINHAUSER, Matthias
10:00	[99] New results for massive coloured pair production	Dr RUIZ FEMENIA, Pedro
10:20	[100] alpha_s at Giga-Z	WINTER, Marc

QCD+top: II - ADEIT - Sala Grados (11:15 - 13:00)

time	[id] title	presenter
11:15	[103] Fermionic corrections to the matching coefficient of the vector current	PICLUM, Jan
11:35	[104] NLL ultrasoft running of QCD potentials	STAHLHOFEN, Maximilian
11:55	[105] Top-antitop production near threshold with pNRQCD	PINEDA RUIZ, Antonio
12:15	[106] Accelerator parameter impact on the top threshold mass	Dr BOOGERT, Stewart
