

Workshop at Hiroshima

- Place Hiroshima University
- Date (candidates)
 - **December 12(Wed.) – 14(Fri.) or 15(Sat.) – 17(Mon.)**
 - CF: 19- ATF meeting at KEK
- Organization
 - **not fixed OC , IAC,,,,**
 - **3 working group (next page)**
 - PLC, laser, physics of intense laser
- Supported by KEK
 - **3-4 persons from abroad can be fully supported**

Topics

- Laser-electron Interaction in the ILC
 - focus on photon collider, high intensity/power laser and related physics (on the way to the ILC)

R&D for
High Intensity/power lasers
Gronberg?, Omori?
cavity, lasers

Photon Colliders

Physics

Detector

Physics with
(intense) laser and e- beam
Homma, Tauchi?

w/ ATF2 beam?
