

# CALICE week at IPN Lyon

## Friday, 18 September 2009

### High Energy - Amphithéâtre Dirac (14:15 - 15:45)

time	[id] title	presenter
14:15	[6] Calorimetry requirements at 3 TeV	BLAISING, Jean-Jacques
14:35	[7] Comparison between Tungsten and Fe for HCAL at multi-TeV energies	Dr LUCACI-TIMOCE, Angela
14:55	[8] Physics performance of a DHCAL with various absorber materials	BLAHA, Jan
15:15	[9] Ideas for a Tungsten-based HCAL test beam prototype	Mr GREFE, Christian
