

POSIPOL 2011

Tuesday, 30 August 2011

Target session (09:00 - 12:20)

-Conveners: tsunehiko omori

time	[id] title	presenter
09:00	[15] On granular targets for positron source	SIEVERS, Peter
09:30	[16] Conversion targets for Compton gamma sources (by webex)	Dr BULYAK, Eugene
10:00	[17] Hydrodynamical models of shock waves in target material	ADEYEMI, Olufemi
10:30	Coffee break	
10:50	[18] Heat load and stress studies for target and collimator materials	Dr STAUFENBIEL, Friedrich
11:20	[19] Polarimetry at the e+ source	Dr SCHULER, Peter
11:50	[20] Polarization phenomena in a multiple Compton backscattering process.	Prof. POTYLITSYN, Alexander
