

ILD EB meeting

Tuesday May 21, 2013

ILD meeting during ECFA

Thursday afternoon, 14:00 – 17:00, Sem Room 4

- Introduction
- Post DBD physics goals for ILD (proposed speaker Jenny List)
- Post DBD software and reconstruction goals for ILD (Frank/ Akiya)
- ILD re-optimization (presentation and discussion)

- ILD goals and structures: presentation and discussion

ILD speaker for the plenary talk on ILD:

Taikan Suehara

Rehearsal talk probably Thursday 11:30

ILD post DBD

What are the next steps:

- We move towards a linear collider project (Japan)
- We need to be prepared so that ILD can come forward ones this is required
- We need to continuously improve and keep our design up-to-date
- Short term: make sure ILD participates properly in ongoing strategy discussions around the world (snowmass, other countries and regions)
- Results from the DBD
 - Re-optimization in performance / cost space
 - Adapt to the physics landscape post Higgs-discovery
 - Understand hardware / technologies better

Institute Assembly
