

Working on Koya-san Request (*)

Production Preparation

- Uploaded two new ILDConfig version to the GRID.
 - ILDConfigv01-16_05x05tile_250
 - ILDConfigv01-16_45x05strip_250
- Mokka 0803 not in ilcdirac system (0804 is available)
 - Koya san already produced some samples with this Mokka version.
 - Mokka 0804/0803 depends on different geant4 version (9.5/9.6).
 - Even production can be run with Mokka 0804, using 0803 preferred to avoid unexpected differences.
- Requested to ilcdirac maintainers to install 0803 version.
- Once Mokka 0803 in ilcdirac the simulation jobs will be submitted.
