

ILD Contributions to ICHEP

Keisuke Fujii

10 Feb. 2016

Abstracts Submitted

- **Precision Measurements of Higgs boson couplings at the ILC (Higgs)**
Submitted by Frank Simon [on behalf of the ILC physics and detector study](#)
- **Prospects for future measurements of the Higgs self-coupling (Higgs)**
Submitted by Frank Simon [on behalf of the ILC physics and detector study](#)
- **Top physics at CLIC and ILC (Top&EW)**
Submitted by Frank Simon [on behalf of CLICdp and the ILC physics and detector study](#)
- **Impact of Theory Uncertainties on the Precision of the Top Quark Mass in a Threshold Scan at future e+e- Colliders (Top&EW)**
Submitted by Frank Simon as [an individual contribution](#).
- **Naturalness and light higgsinos: a powerful reason to build ILC (BSM)**
Submitted by Howie Baer as [an individual contribution](#).
- **SUSY model and dark matter determination in the compressed-spectrum region at the ILC (BSM)**
Submitted by Mikael [on behalf of the ILC physics and detector study](#)
- **WIMP Searches at the International Linear Collider (BSM)**
Submitted by Jenny as [an individual contribution](#).
- **Precision EW measurements (?) (Top&EW)**
Submitted by Graham [on behalf of the ILC physics and detector study \(?\)](#)
- **500 GeV ILC Operating Scenarios (Future Facilities)**
Submitted by Jim Brau [on behalf of the ILC parameters joint WG](#)
- **PFA, software compensation, etc (Det/Comp) (?)**
