

LCC Software Working Group in 2017

F.Gaede, DESY

LCC SWWG, Jan 13, 2017

Agenda

- regular general LC Software Phone Meeting
- a common LC Software Workshop early this year (e.g. March)
- plans for the LCC SW WG
- A.O.B.

regular general LC Software Phone Meeting

- What ?
 - discuss iLCSoft release schedule
 - (Grid) resource allocation
 - technical issue in core software tools
- Who ?
 - LCC SW WG + software experts/developers ?
 - completely open ?
- How often ?
 - once a month or every other week ?
- When ?
 - every 1st Mo/Tu/We/... of the month ?
 - rotating times 07:00/15:00/23:00 ?

Common LC Software Workshop

- had LC Software Workshops at CERN in the past
 - very useful for common software tools
 - last one held @ CERN in 2013
 - since then only attached to LCWS or concept specific (ILD)
- would it be useful to have a LC-SWWS this year ?
 - before LCWS @ SLAC (in June) ?
 - where and when ?
- potentially at CERN end of March ?
- also could add LC-SW meeting to LCWS @ SLAC

plans for the LCC SW WG

- supposed to give short report about LCC-SWWG plans in LCC-PDB meeting next week
- will present plans discussed today
- and plans for concepts:
 - example ILD:
 - will have large MC production w/ two different detector models
 - full SM for planned energies (250, 350 GeV, ...)
- anything else ?

- HSF CWP meeting in San Diego
 - <https://indico.cern.ch/event/570249/overview>
 - focus on *Community White Paper (CWP)* process
 - planning of major HEP software activities for the next 10 years
- FG will give short report on: *Software plans and challenges for Linear Collider*
 - ILC resource requirements are small wrt. LHC
 - so far strong focus on common and flexible/generic software tools
- ...
