

KEKCC report

■ /group/ilc is about full

- Old soft in /group/ilc/soft were removed in 2/20.
 - Use those in /sw/ilc or /cvmfs/
- This freed about ~2TB, but again at lunch time today, 112.225TB used /112.640TB capacity

■ Remove un-used files

■ Move large files to tape area

- /hsm/ilc/users/[your_name]
- /hsm/ilc/grid/JB/users/[your name]
- Tape capacity is limited. Consider to share files/space before creating large files on tape.
- Small files (< 10MB) should be on disk or merged into a larger file with tar command, for example, before moving to tape

■ Those who use more than 1TB

- ✓ 32,585,620,078 kurata
- ✓ 11,609,440,138 jackie
- ✓ 11,493,404,512 mori
- ✓ 9,368,992,245 duerig
- ✓ 3,607,591,062 tianjp
- ✓ 3,174,660,044 suehara
- ✓ 1,360,576,800 ogawat
- ✓ 1,312,624,212 kiyoaki
- ✓ 1,163,967,340 katoe

User files should be in
/group/ilc/users, not
/group/ilc
