

## Spokesperson's Farewell

Roman Pöschl

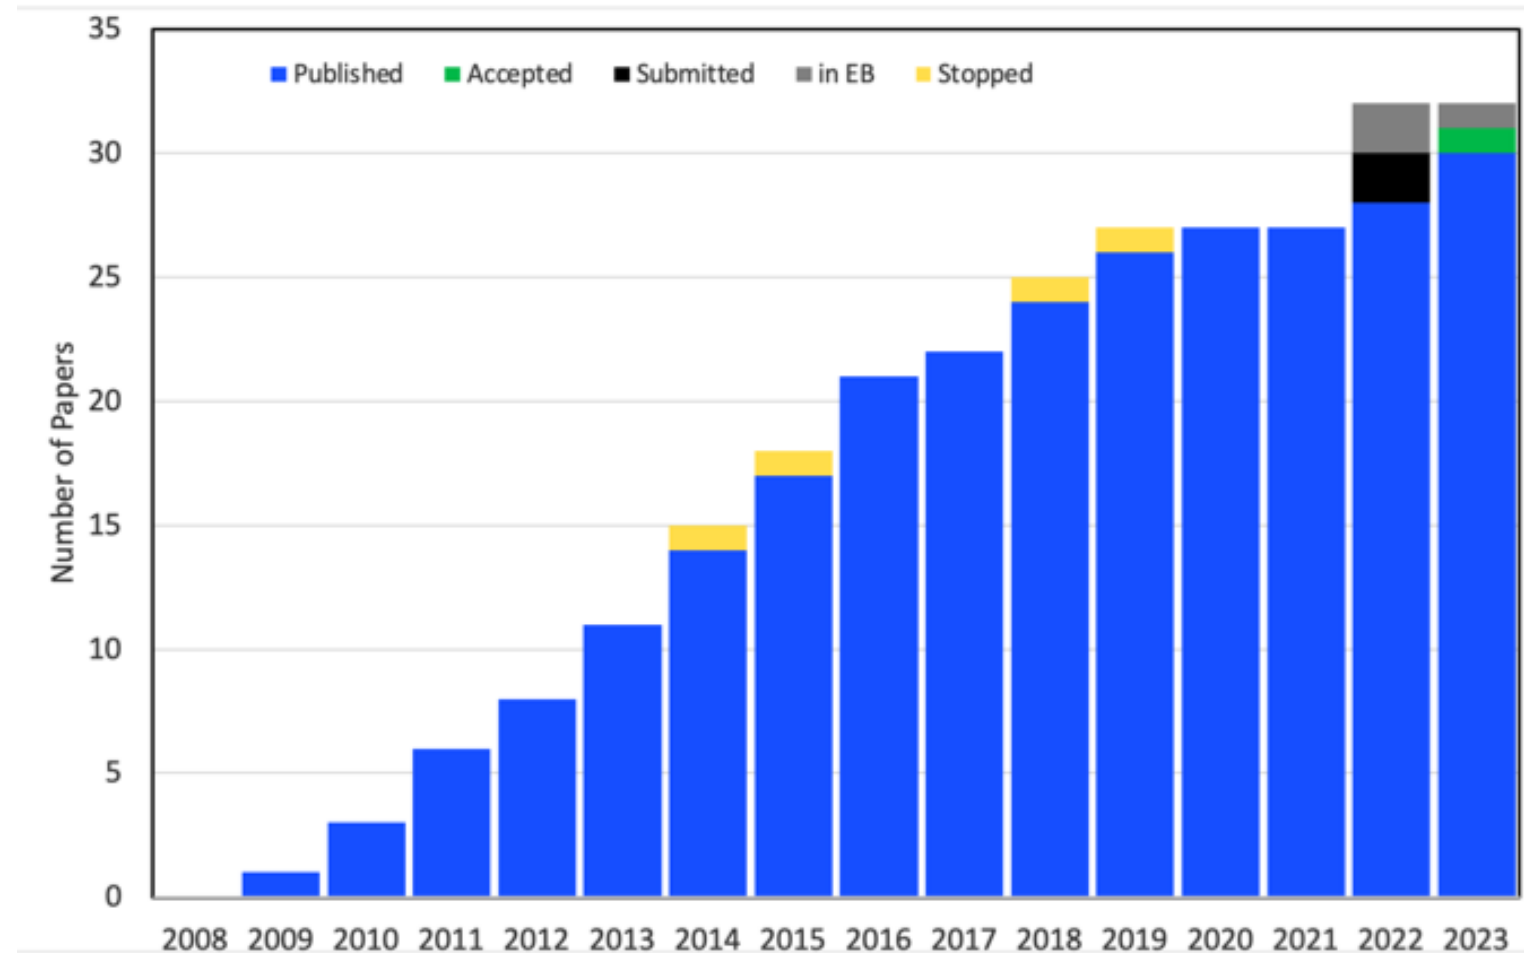

CALICE Collaboration Meeting Prague – September 2023

*Credit: Petra Köppl*

- Thanks to **Ivo, Jaroslav, Jiri, Petra Köppl, Dan Hasalík, Michal Kovalčuk, Patricie Škytová, Nina Tůmová, Lukas Fiala** for having organised this CALICE meeting in the Golden City of Prague
- It felt like coming home!
- Thanks to the participants and speakers for the excellent contributions and the lively discussions

<https://twiki.cern.ch/twiki/bin/view/CALICE/EditorialBoards>

- We have still a rich set of data that awaits to be analysed
  - These data will also help to keep the entire community together
- Please help to make this curve continue to grow

**MANAGEMENT:**

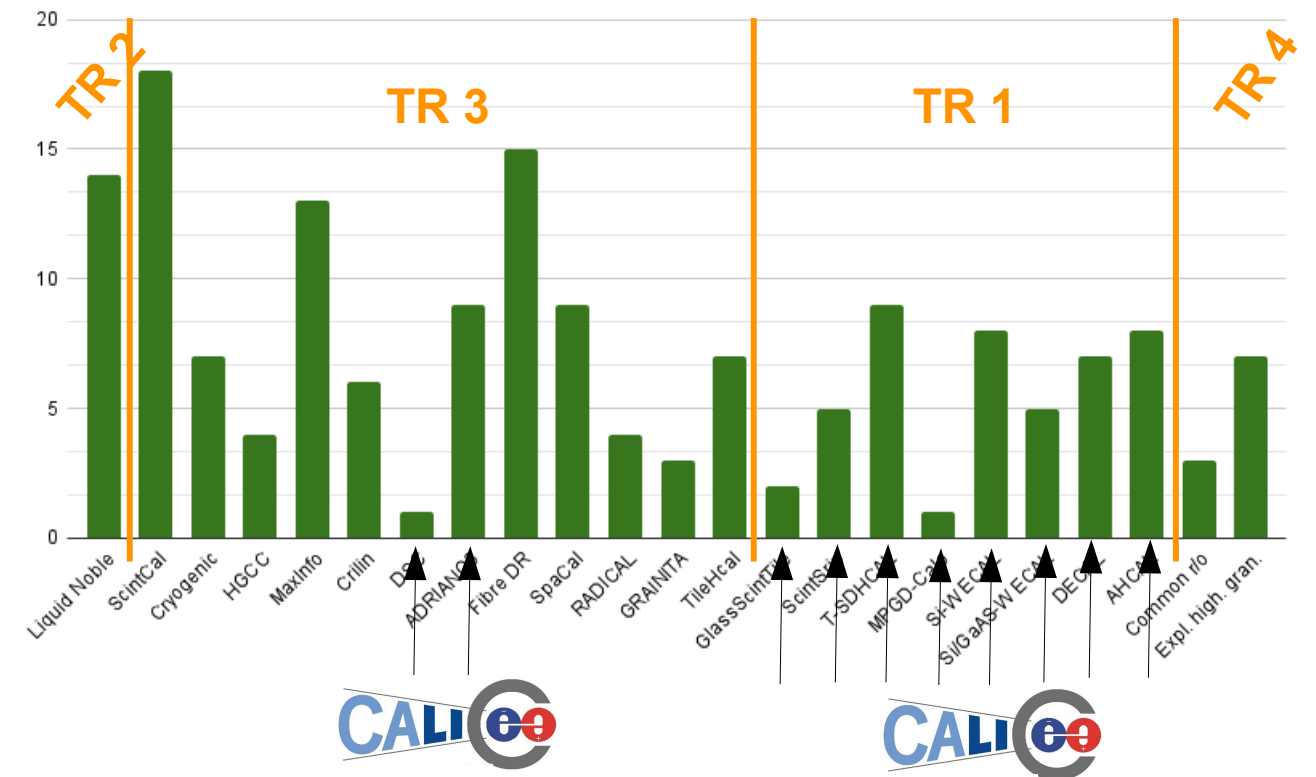

**WORK AREAS:**

**TRANSVERSAL ACTIVITIES:**  
(common collaboration interest & liaison with other DRD)

## Institutes Per Proposal

- CALICE work will continue in another frame - DRD
- We give/gave already important input to the formation of the DRD
- ... keep on emphasising the global aspect
- We will inspire other projects and get inspiration from them
- The opportunities outweigh the (rightful) worries

**I have the honour to guide CALICE through this period as the Spokesperson**

# A common view on the new R&D landscape

- A unique opportunity to get different views on how to move on
- Exchange with experienced researchers and Early Career Scientists

## Next meeting!?

- The next meeting will be rather in form of a symposium
  - ... for sure in the first half of 2024
  - ... to be coordinated with e.g. the first DRD Calo meeting

Have a safe trip home
