Introduction and LDG working group on sustainability

Tuesday 9 July 2024 13:00 (20 minutes)

An introduction to the Industrial Forum on Accelerator Technologies and Advanced Instrumentation for Future Linear Colliders and Sustainability Plenary session will be given. Experience from the previous LCWS workshops will be summarized. This talk is also intended to highlight the efforts ongoing within the LDG WG on “Sustainability Assessment of Future Accelerators” and to receive a feedback on the initiative from the HEP community.
