Elected members of the ET

Jean Claude Brient

Jenny List

Marcel Vos

Graham Wilson

Plans for an ILD meeting

Proposal:

Dedicated 2-day ILD meeting in January (dates 16./17.1.2024, at CERN)

- General discussion on state of ILD
- Focus on future developments of the concept for
 - ILC (linear colliders)
 - Asymmetric colliders (HALHF)
 - FCC-ee

We anticipate 1.5 days of meetings and discussions (heavy on discussions)

CERN as a location, so people can connect this with other meetings

Middle of the week (Tue/Wd) so that before and after specialized meetings can take place
