

software group report

Daniel Jeans for the sw coordinators

ILD sw/ana meeting 2023/11/8

Generator

- Bhabha @ 500 GeV [Mikael]
extra samples to cover missing phase space generated → uploading to DIRAC
- 6f @ 250 GeV [Junping]
still a few missing samples on the to-do list

Simulation

- no news

Reconstruction

- no news

MC production

- aa_[2/4]f, ae_[3/5]f samples sim/reco underway [Hiroaki, Ryo]

AOB

- thinking about software contributions to ILD meeting in January
- availability of Snowmass MC samples ? generator, DELPHES
open to e.g. ECFA study participants
- need good entry point for (new) users to better understand content of
e.g.250 GeV mass-prod samples
