

Session Program

9-13 Nov 2026

International Workshop on Future Linear Colliders 2026

High Gradient RF Techniques

KEK

Wednesday 11 November

14:30

High Gradient RF Techniques

Session | Location: KEK, Bld.4-2F-Seminar room

14:30-14:50

Status of the COLD (Cool copper Operation Linac) Project

Speaker

Alessandro D'Elia

14:50-15:10

Update on C-band activities at LANL

Speaker

Evgenya Simakov

15:10-15:30

High-Power Test Results for Multiple-Sector X-band Accelerating Structures Fabricated Using Different Materials but Based on the Same Design

Speaker

Abe Tetsuo

16:00

16:30

High Gradient RF Techniques

Session | Location: KEK, Bld.4-2F-Seminar room

16:30-16:50

Next Generation Low Level RF Control Automated for Breakdown Studies

Speaker

Sophia Morton

16:50-17:10

Short Pulse Driven Photogun for Bright Beams generation

Speaker

Emilio Nanni

18:00
