2) WG agenda

Physics (4)

- Higgs and Electroweak Physics
- Flavour, Top and QCD
- Global Analysis
- Beyond-the-Standard-Model physics

Software (1)

- Software (Simulation, Reconstruction, MC generators & Machine Learning)

Detector (2)

- Calorimetry + PID
- Tracking, vertexing and timing

Accelerator (6)

- Superconducting RF systems
- High-gradient RF techniques (WW)
- Advanced accelerator technologies
- MDI & conventional systems
- Damping rings, Beam dynamics, Beam delivery systems
- Electron and Positron Sources

Total : 13 categories

See the details for the candidate of WG conveners.

- Added new WGs of "**Beyond Collider Opportunities**" and " **AI optimization**".

Need conveners

(Sustainability, industry & applications)

- “Sustainability” and “industry & applications” WGs are suggested by Maxim-san and mailed invitation letter to suggested WG members.

- **We hold all WG conveners meeting on 7/7 to tell WG charge.**
