

European LC Workshop

Monday 8 January 2007

PPS - Cockcroft Seminar Room C (10:30 - 14:00)

time	[id] title	presenter
10:30	[73] Polarization in GEANT 4	SCHAELICKE, Andreas Schaelicke
10:45	[64] Spin transport in the capture optics	JENNER, Leo
11:00	[63] Depolarisation in the ILC	MALYSHEVA, Larissa
11:15	[70] News from depolarization effects in beam-beam interaction	MOORTGAT-PICK, Gudrid
11:30	[71] Polarisation dependency of nonlinear IP pair production processes	HARTIN, Tony
13:45	[62] Undulator modelling and prototypes update	ROCHFORD, Jim

PPS - Cockcroft Seminar Room C (13:00 - 14:30)

time	[id] title	presenter
13:00	[74] A low energy positron polarimeter for the ILC	DOLLAN, Ralph
13:15	[72] Target issues for different undulator parameters	USHAKOV, Andriy
13:30	[65] Collimator Overview	BAILEY, Ian
14:00	[61] Status of the 4m undulator module	BRUMMITT, Amanda
