

European LC Workshop

Monday, 8 January 2007

BDS ILPS LET combined - Cockcroft Seminar Room A (15:00 - 16:30)

time	[id] title	presenter
15:00	[20] Limitation on precision luminosity measurement from beam-beam effects	RIMBAULT, Cecile
15:20	[33] Suggested ILC energy and beam parameter optimisation for precision Higgs boson measurements	BAMBADE, Philip
15:40	[22] Status of fast beam-based feedback system programme	BURROWS, Phil
16:00	[58] Electromagnetic Background in the IP Feedback System	HARTIN, Tony

BDS ILPS LET combined - Cockcroft Seminar Room A (17:00 - 18:30)

time	[id] title	presenter
17:00	[94] Automatic Optimisation of Final Focus Systems with Local Chromaticity Correction	Dr NAPOLY, Olivier
17:20	[21] The CLIC extraction line	FERRARI, Arnaud
18:00	[8] Estimated photon backscattering from beam losses in the ILC extraction line	DADOUN, Olivier

Tuesday, 9 January 2007

BDS ILPS LET combined - Cockcroft Seminar Room A (09:00 - 10:30)

time	[id] title	presenter
09:00	[41] Dynamic Simulations	SCHULTE, Daniel
09:20	[31] Development and improvement of the guinea-pig beam-beam simulation	MEUR, Guy Le
09:40	[32] Comparison of e+e- and e-e- modes of operation with realistic errors in the BDS	ALABAU, Maria
09:55	[9] Improvements of the CLIC beam delivery system	TOMAS, Rogelio
10:15	[13] Study of the CLIC Beam Delivery System	LOPEZ, Javier Resta

BDS ILPS LET combined - Cockcroft Seminar Room A (11:00 - 12:30)

time	[id] title	presenter
11:00	[67] Status of the Head-on Interaction Region	Dr NAPOLY, Olivier
11:20	[19] Recent improvements of BDSIM	
11:35	[38] Recent Improvements of PLACET	LATINA, Andrea
11:55	[80] Implementation of Higher Order Mode Wakefields in Merlin	BUNGAU, Adriana
12:15	[6] Calculation and Implementation of collimator Wakefields into PLACET	LATINA, Andrea
