

# **Summary of Conventional facilities and construction schedule**

Nobuhiro Terunuma  
KEK

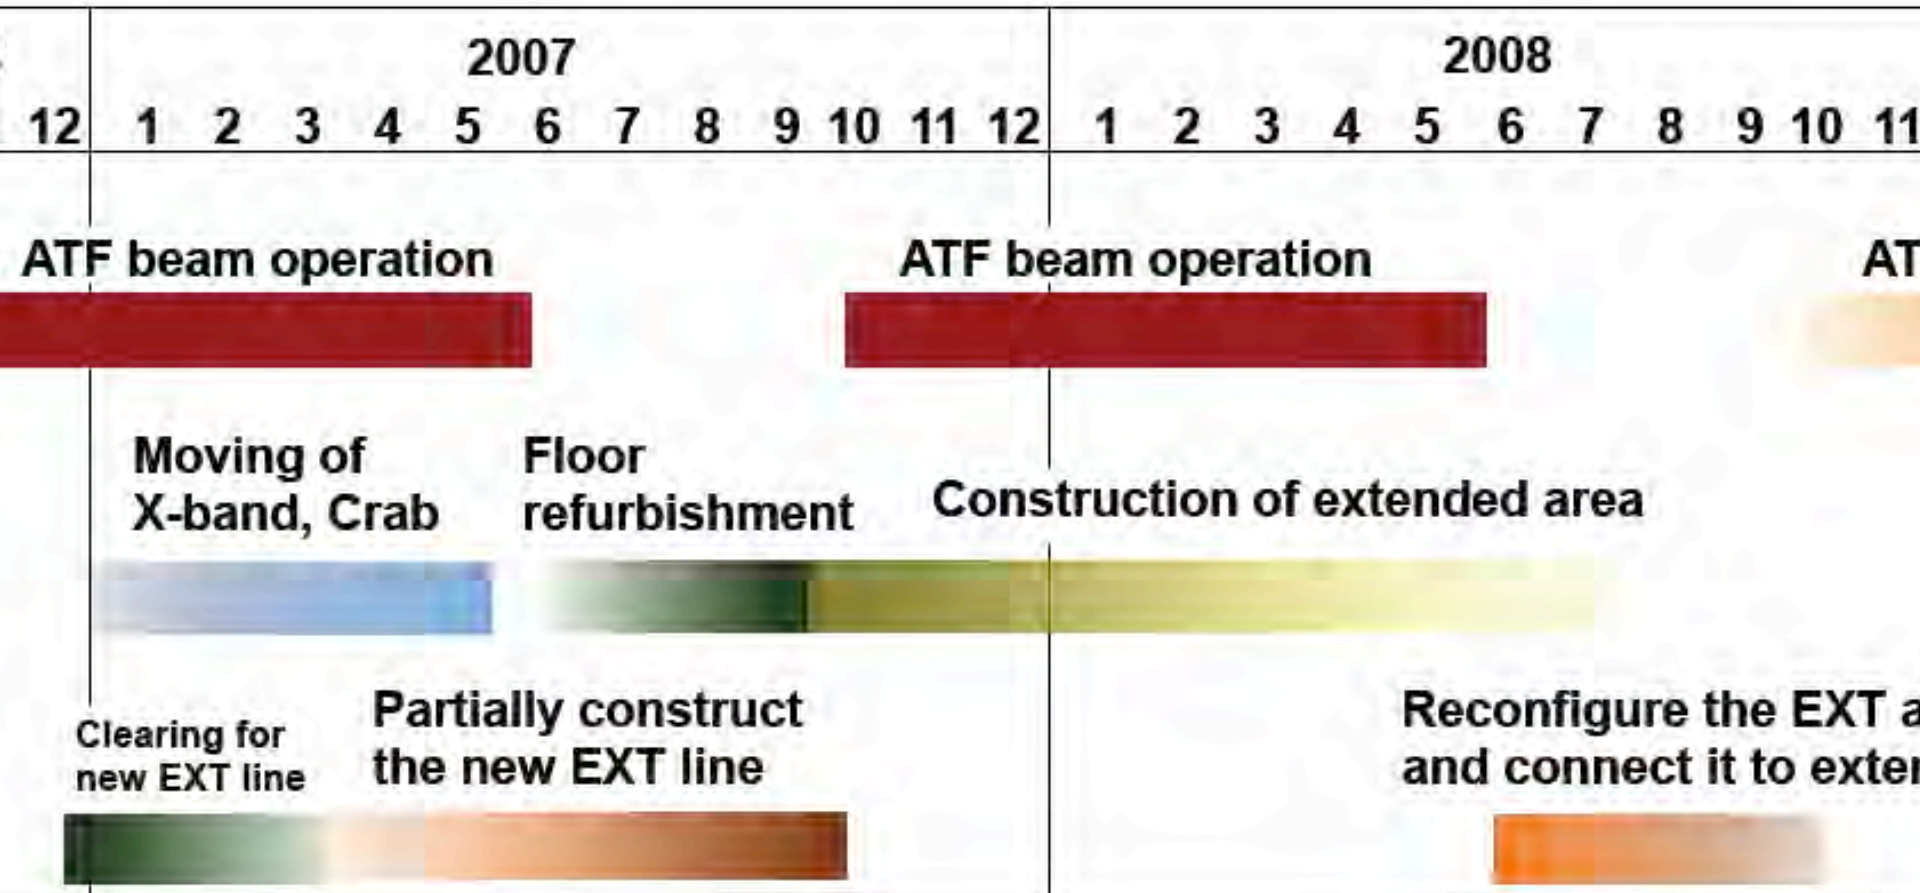

3rd ATF2 project meeting, 18-20 December, 2006, KEK

# Area for ATF2 beam line

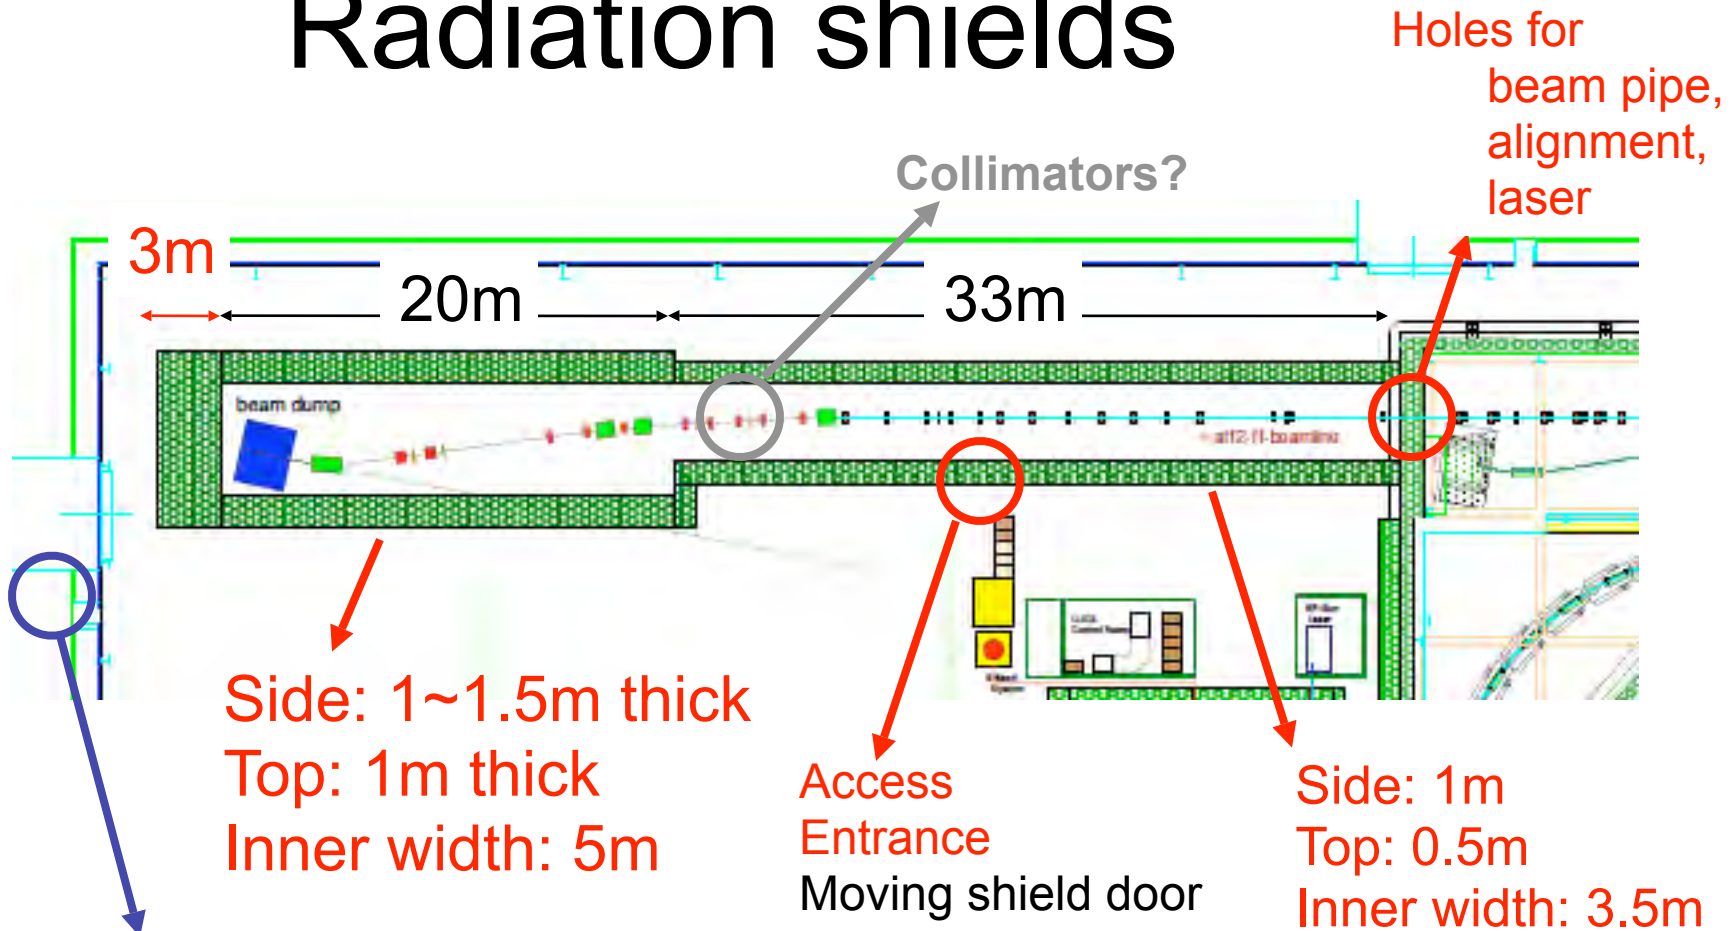

These are R&D devices for X-band and Crab cavity.

# We need your help!

# Radiation shields

Public area:  $< 0.2\mu\text{Sv}/\text{h}$

h

Penetration holes (water pipe, cables,...) should be well designed.

## Reconfiguration of EXT line

Remove cables,  
Modify tables for different magnet  
distances,  
Re-locate magnets.
