

ILC TPC Analysis Jamboree

Friday, 16 March 2007

Physics of TPCs from ionisation to signal readout - Lecture Hall AS, Templergraben 64 (09:00 - 11:30)

time	[id] title	presenter
09:00	[17] Simulation of the energy resolution dependance on the geometry of Micromegas detectors	CHEFDEVILLE, Max
09:30	[12] Energy resolution on the 55 Fe peak and gain fluctuations	COLAS, Paul
10:00	[14] Gain measurement in various gas mixtures and optimization of the stability	ATTIÉ, David
10:30	[20] First results on electron tracks with GEM-Medipix2/Timepix	RENZ, Uwe
