

For ILC Acc. Physics Meeting,  
20070717

K.Kubo

- We should assign one or two contact person(s) for each of tasks in following pages.
  - Let us decide for most of the tasks in the list 'A' now.
  - For the list B, maybe later. (?)
- Define time line of each task
  - Each contact person should draft. By next meeting(?)
- More detailed draft list is in an Exel file (uploaded on the meeting web page)
- Detail descriptions of tasks prepared by US group are available :  
(<http://www.slac.stanford.edu/~quarkpt/EDRPlan/>)

List A: Information for simulations	
Lattice design	Alex Valishev (FNAL)
Alignment model	Kiyoshi Kubo
Ground motion and vibration model	Jim Volk (FNAL)
RF (BC, ML) error model	Andrey Lunin (FNAL)
BPM performance mode Cold and Warm	Manfred Wendt (FNAL)
BSM(Beam size monitor) performance model	
Cavity wakefield	Zenghai Li or Karl Bane (SLAC)
Collimator wakefield	Igor Zagorodnov (DESY), Zenghai Li or Karl Bane (SLAC)
Other impedance	Karl Bane or Gennady Stupakov (SLAC)

List B: Simulations	
RTML, upstream	
RTML, BC	
Main Linac	Nikoly Solyak
BDS	
Feedback	Paul Lebrun
Start to End	

# Future meetings

- Next phone meeting
- Face to face meeting in this year?
