

ILC Interaction Region Engineering Design Workshop

September 17-21, 2007

Stanford Linear Accelerator Center

Closeout

Andrei Seryi, SLAC, September 20, 2007

Global Design Effort

How to proceed

- Work before the IRENG07 workshop
 - **was very important**
- Work at the workshop
 - **A lot of extremely useful information**
 - **Many options for design optimization**
 - **In many cases suggestions of plans for further studies were discussed**
- Further work
 - **develop interface document (s) to describe parameters, solutions, responsibilities**
 - **to develop plans for EDR work to carry out studies needed to improve the design**
 - **keep working together on these studies**

Thanks!

- Great thanks to Naomi Nagahashi and Nick Arias for organization and arranging everything!

ILC Interaction Region Engineering Design Workshop

September 17-21, 2007
Stanford Linear Accelerator Center

Thanks to everyone!
