

# Nanobeam 2008 Workshop

## Wednesday, 28 May 2008

### Advanced e+ source // Crystal channeling and applications (09:00 - 12:30)

time	[id] title	presenter
09:00	[11] Positron source and liquid target R&D at BINP	LOGATCHOV, Pavel
09:30	[12] Laser Compton based positron source	Dr OMORI, tsunehiko
10:00	[46] Present status of KEKB positron source	KAMITANI, Takuya
10:30	[13] New positron source at the KEKB injector linac based on oriented tungsten crystal converter	TROPIN, Igor
11:00	Coffee break	
11:20	[16] Crystal channeling for electron/positron beams	Dr TAKAHASHI, Tohru Takahashi
11:50	[53] On the use of ERL for gamma production	Prof. VINOKUROV, Nikolay
