Plans for a Damping Rings and CEsrTA Workshop at Cornell

Mark Palmer

*Cornell Laboratory for
Accelerator-Based Sciences and Education*

- Hold a mini-workshop to review experimental plans for CEsrTA
 - Solicit input on the program
 - Explore areas of collaboration within the damping rings group
 - Estimate 1.5-2 days duration
- Hold a damping rings R&D meeting
 - Estimate 1-2 days duration
 - Possibly overlap some general sessions with CEsrTA sessions
- Finally allow time to meet with ILC project managers, as needed
- Overall workshop duration 3.5 days

- Propose July 8-11 for workshop
 - Tuesday through Friday morning
 - Friday afternoon could be available for special meetings/discussions, if needed
 - Dates appear to avoid major conflicts with GDE calendar
- Workshop will take place at the beginning of the major CesrTA reconfiguration down
 - Tours will be offered

- Cornell's ILR Conference Center
- 4th floor layout
