

Status of the SiD Tracking Effort

Tuesday 10 June 2008 16:30 (30 minutes)

The SiD tracker emphasizes low mass silicon tracking over the full angular range. The status of the novel silicon double-metal sensors with kPix readout will be presented as well as the status of the tracking software with emphasis on the forward region.

Presenter: DEMARTEAU, Marcel (Fermi National Accelerator Laboratory (FNAL))

Session Classification: 5. Tracking/Vtx
