

Oblique-parameter constraints on multi-Higgs-doublet models

Wednesday 11 June 2008 11:50 (20 minutes)

We present general expressions for the oblique parameters S , T , U , in the $SU(2) \times U(1)$ electroweak model with an arbitrary number of scalar $SU(2)$ doublets, and an arbitrary number of scalar $SU(2)$ singlets.

Based on arXiv:0711.4022, arXiv:0802.4353
