QM7R : modeling of TOKIN3581 and measurements

Wednesday 10 December 2008 14:50 (20 minutes)

I would like to show the results obtained modeling the TOKIN 3581 magnet and comparing with the Hall probe measurements recently taken by Mika Masuzawa's team. This could be a good occasion to get any expert feedback ahead of the project meeting, so that we can propose replacing QM7 in the corresponding session next week.
