

CLIC Collimation Studies

Meeting at the Cockcroft Institute, 15/01/2009

- Purpose of the meeting
- Agenda
 - Collimation depths (definition)
 - Collimation performance
 - Survival
 - Beam damage plans
 - Wake fields
 - Emittance dilution
 - Ultra-short collimation system
 - Failure scenarios and order of collimation
- Lattice designs and collimation performance studies
 - @500 GeV CM
 - @3 TeV CM
- Timescale of studies
 - CLIC CDR
 - CLIC'09
