

Status Report: LCWA09 Organization

Sally Seidel

14 May 2009

- Please see panda.unm.edu/LCWA09.
- Conference coordinator, Ms. Pat Berger, will start May 18.
- Indico has been installed on the UNM server. Please see the skeleton schedule at <http://64.106.62.25/MaKaC/conferenceDisplay.py?confId=12>.
- 11 registrations have been received (thanks to the GDE management!)
- FNAL Visual Media Services is managing poster production. FNAL Conference Services will manage poster distribution to 612 institutions. Target date for mailing: May 31.
- Sample portfolios have been received. Visual Media Services will provide a logo that can be printed on them.
- A page on visa info and a continuously updated list of registrants have been added to the website.
- No requests yet for financial aid.

•Please review the draft list of parallel sessions/working groups under the Scientific Program tab on the Indico page and send revisions. Present list:

GDE Working Group #1

GDE Working Group #2

GDE Working Group #3

GDE Working Group #4

GDE Working Group #5

GDE Working Group #6

Vertex Detectors

Tracking

Calorimetry

Muon Detectors

Interactions Regions and Backgrounds

Beam Measurement Instrumentation

Test Beams

Data Acquisition and Trigger

Missing Energy Physics Signature

Jet and Photon Energy Measurements

b/c Separation and Tau Tagging

Charged Particle Momentum Measurements and Identification

- We are happy to act on your request to add a public talk to the agenda on the evening of October 1. No action has been taken yet as we are waiting for further guidance on financial support, anticipated audience size, nature of publicity expected, name of speaker...
- Is it time for DPF to broadcast an announcement of this conference?
- How do you want to receive abstracts? What opening and closing dates for abstract submission do you want?
