Higgs Branching ratio study

ILC physics and software meeting

Apr. 01. 2011

H. Ono (NDU)

Current status

- ALCPG11 attend via WebEx

- I already finished moving all the files from jlclogin2 to Niigata Univ. server.

- LOI and 350 GeV samples are not copied at this moment

- Analysis environments are set up on Niigata Univ.

CPU servers at Niigata Univ.

- Main user: DoubleChooz

- Analysis server: SL4 (PentiumD 3GHzx2, 1GB)
  - RAID: 2TB (1TB has been occupied, about half is my files)

- CPU 2 nodes:
  - Xeon Quad 2.3GHzx4, Memory 4GB

- CPU 8 nodes:
  - PentiumD 3GHzx2, Memory 1GB

- I am not sure how much we can user these resources
