Engineering model and simulation model

- FTD
 - 1st and 2nd disk do not generate signal?
- ETD
 - Simulation baseline does not include ETD
 - Place-holder model keeps ETD
- Muon detector
 - Endcap muon should not extend to the Rout of the iron yoke → will be modified?
- LHCAL
- Anything else?

ILD plan

- Selection of “Readers” – by ILD workshop?
- When can we start mass production of simulation data?
- ILC PAC: May 15-16 @FNAL
- European strategy meeting: May 15(?) @Paris
- ILD Workshop at Kyushu University in Fukuoka
 - MDI/Integration pre-meeting: 21-22
 - Software WG meeting: 22
 - CALICE, LCTPC meeting: 22
 - Tour of Sefuri site: 22 13:30~
 - Main workshop: 23-25 (adjourn 16:00)
 - Goal: Define ILD baseline to be described in DBD
 - Detailed agenda has to be decided soon
