

# News from Saclay

- 6 modules back to Saclay after test on the bench at CERN
- 1 to be re-tested after repair
- 1 on the bench being tested
- 1 being finished by Rui, to be assembled and tested

# NEXT DATA TAKING

- Noise conditions were not very good in July 2012 : need filtering on each module
- Beam test request from January 28 to February 2013. (No reply yet, is it confirmed?)
- The first few days will be used to mount the detectors and test them. We need beam only around 31st afternoon.
- Everybody welcome (already Kolkata and Carleton people plan to contribute)

# ANALYSIS MEETING

- Try to discuss analysis (resolution, alignment, etc... on Tuesday 11th of December at 14:00 DESY time).
- Please send contributions to the agenda to Jochen Kaminski [kaminski@physik.uni-bonn.de](mailto:kaminski@physik.uni-bonn.de) and Paul Colas [Paul.Colas@cea.fr](mailto:Paul.Colas@cea.fr)
