

FJPPL-FKPPL Workshop on ATF2 Accelerator R&D

Monday 11 February 2013

ATF2 beam size studies and optics investigation and improvement - Room 166 in building 200 (09:10 - 10:30)

-Conveners: Toshiaki Tauchi

time	[id] title	presenter
09:10	[4] Status of ultra-low beta optics proposal at ATF2 for ILC and CLIC	MARIN LACOMA, Eduardo
09:30	[0] New results and analysis of signals from the BSM, including assessment of instrumental systematics	Ms YAN, Jacqueline
09:50	[1] Experimental method for diagnosis of residual fringe tilt and xy correlation at IP	Ms BAI, Sha
10:10	[5] Alternative FFS design emphasizing vertical chromaticity correction	WANG, Yi Wei
