

## **Session Program**

**31 May 2013 to 1 June 2013**

## **LCTPC Collaboration Meeting**

***Gating and module design including  
minimization of local field inhomogeneities***

DESY, Seminar Raum 1

## Saturday 1 June

09:00

### Gating and module design including minimization of local field inhomogeneities

Session | Location: DESY, Seminar Raum 1 | Convener: Alain Bellerive

09:00-09:15 **Simulations of field distortions because of IBF**

**Speaker**

Thorsten Krautscheid

09:15-09:30 **Measurements of IBF with MM**

**Speakers**

Paul COLAS, Paul Colas

09:30-09:45 **First summary of a module with a gate**

**Speakers**

Philippe Gros, Mr Philippe Gros

09:45-10:00 **Simulations of local field distortion on module edges**

**Speaker**

Klaus Zenker

10:00-10:15 **Status of Analysis and software concerning local field distortions**

**Speakers**

Dr Astrid Muennich, Astrid Muennich

10:15-11:00

**Discussion on the design of modules to include gating and minimize local field distortions**

11:00-11:05 **Laser tests**

11:05
