

# European ILC Meeting

Organized by the Linear Collider Collaboration  
Friday, November 29, 2013  
(Paris, 14:00 – 18:00):

Informal Discussion about the current status of EU projects,  
future EU H2020 call and its implication for the ILC community

... in Conjunction with the 2<sup>nd</sup>  
“Journées Collisionneur Linéaire” of the French community

November 27 – November 29, 2013 in CEA Saclay:

- You are invited to join French Irfu Linear Collider Days, Fri., Nov. 29
  - Possibility to visit CEA XFEL Cryomodule Production Facility, Thu. Nov. 28
- see next slide for details

# IRFU Linear Collider Days

The 2013 Irfu Linear Collider Days organized jointly with CNRS will take place in **CEA Saclay on-site** in Building 526 Amphitheater Joliot Curie on **November 27-29**.

This will be the **second “Journées Collisionneur Linéaire”** of the French community, following the **first event organized in Lyon on May 13-14, 2013\***

The goal of the meeting is to discuss the roadmap for the future linear collider activities in the areas of physics/phenomenology, detector and accelerators technologies:
