

upcoming meeting

- 38th General Physics Meeting, Aug. 30
- ILD meeting 2014, Sep. 6-9 (submit physics talk before **Aug. 27**)
- LCWS14, Oct. 6-10 (submit Higgs / EW talk before **Sep. 10**)

reminder: Proposal by Tomohiko

- Proposed changes to the Friday meeting
 - I encourage everyone to upload the slides at every meeting. It can be as short as one page.
 - I propose to start using Japanese more often, especially when hearing updates from the students, to boost the efficiency of the meeting. However, please keep using English in the presentations.

status of my study

- working on ILC staging optimization; collect results at different polarizations (thanks to Watanuki-san, Tony so far)
- working on anomalous HZZ coupling using ZZ fusion process
- try to complete branching ratio study of $H \rightarrow ZZ$ (finished semi-leptonic mode last year, going to work on hadronic mode)
