

Goal

- Understanding intensity dependence.
- Solve the problem, if possible

Call “Goal 3”. But not after Goal 2. (?)

- Goal 2 need high intensity, well tuned beam.
- Accurate IPBPM is necessary (or very useful) for measuring wakefield effects.

Schedule of Goal 1 Study in 2015 Spring Run

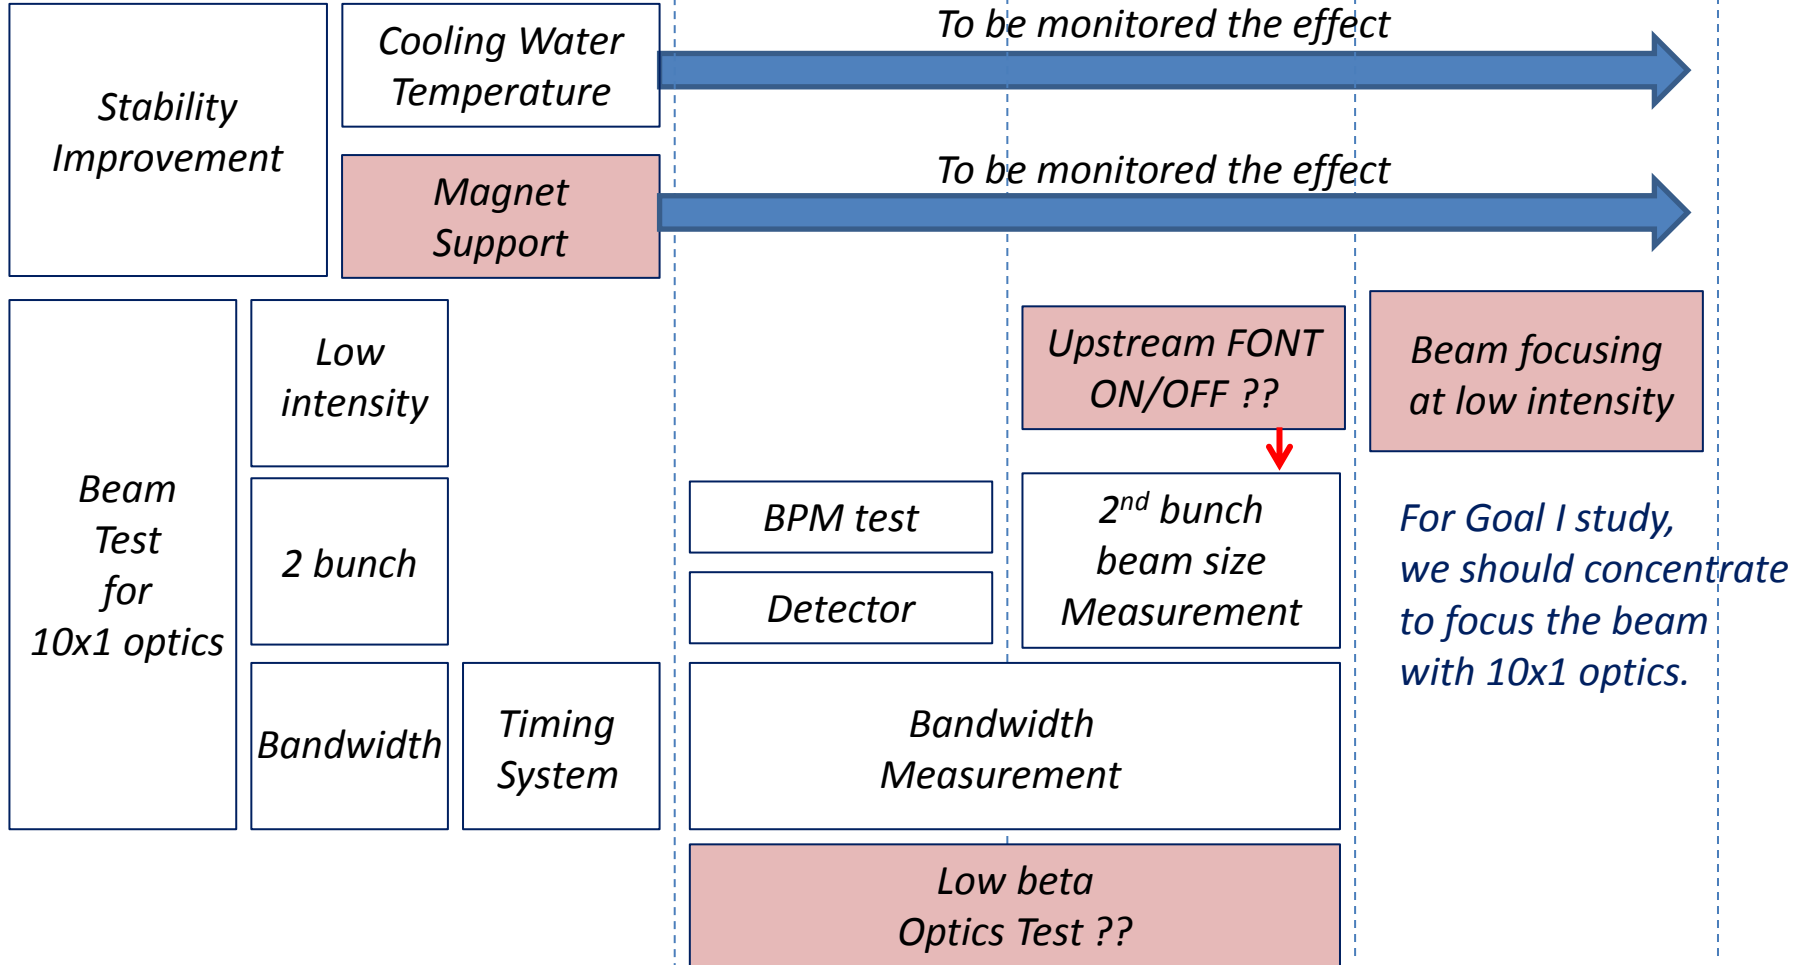

Okugi's Slide

March

April

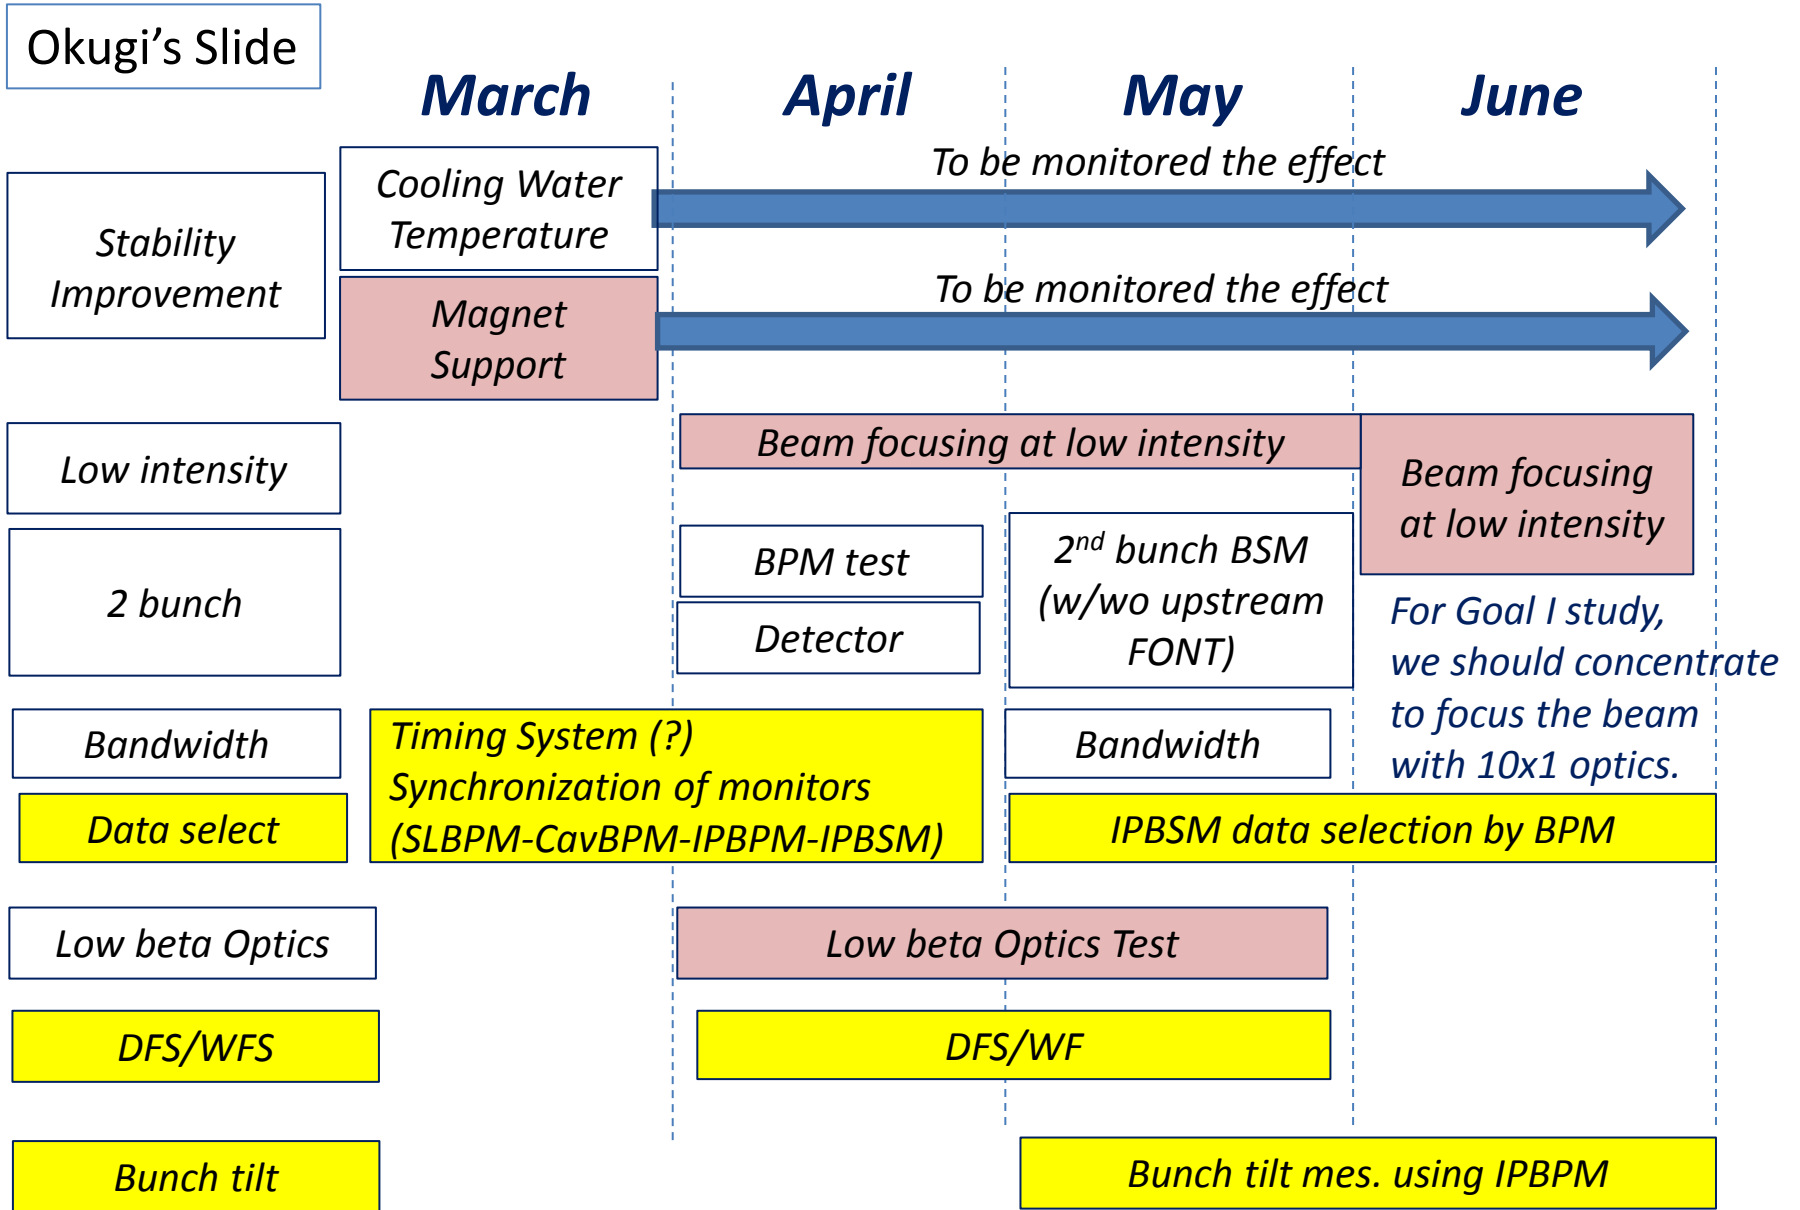

May

June

Will we test the smaller betaX optics ?
If "YES", we should install SF5FF again.*

Schedule of Goal 1, 3 Study in 2015 Spring Run

Should be discussed with Goal-2 schedule
