

Stabilization of DR

DR XPOS

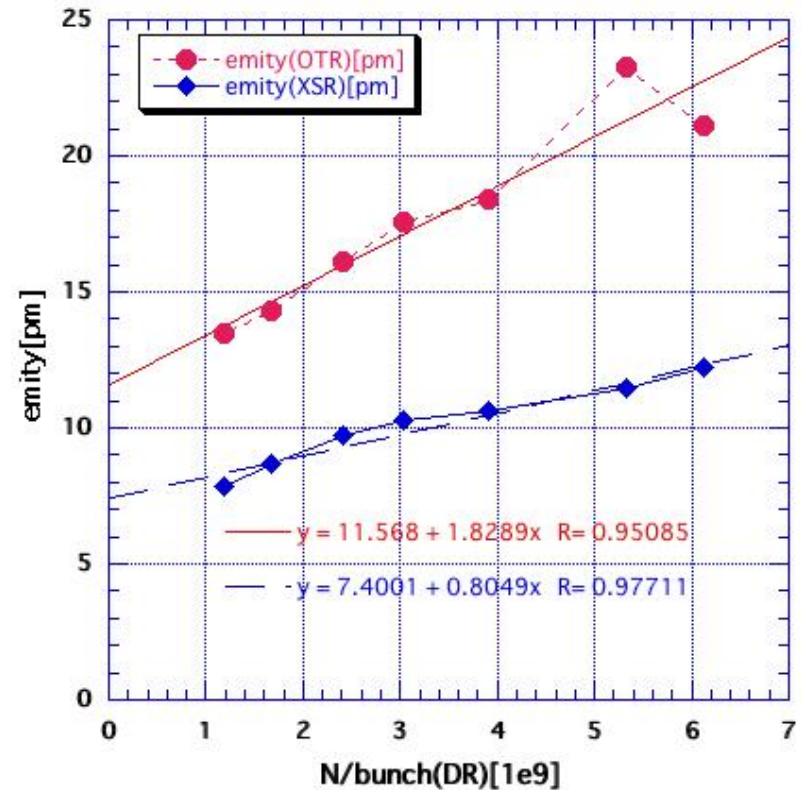

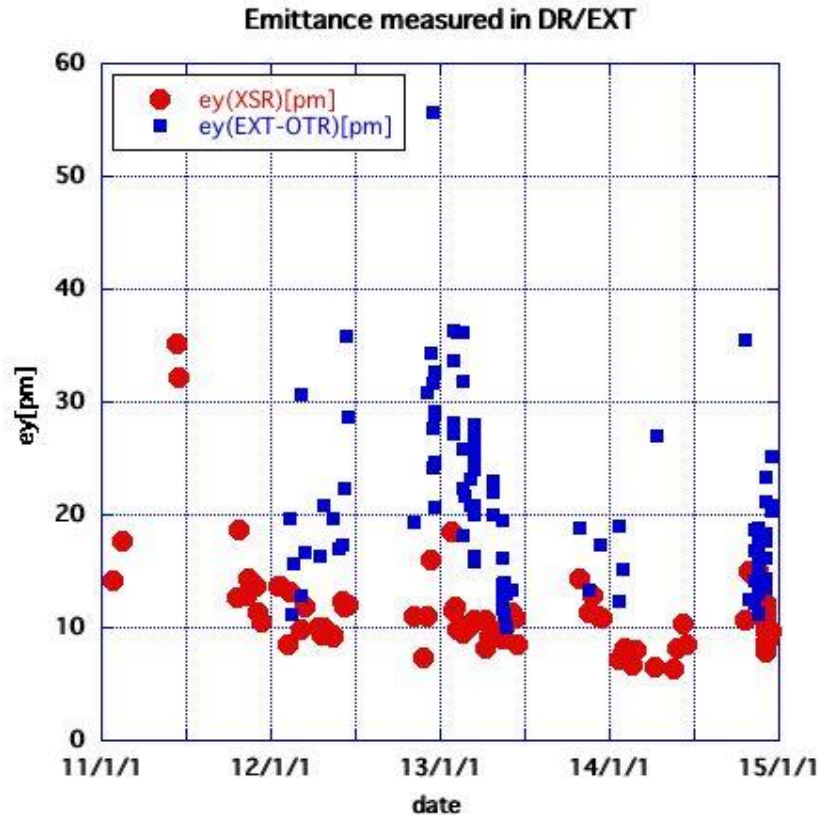

Mag. Cooling water temp.

From logbook 2014/12/15

Optimization of the DR magnet cooling water system stabilize DR orbit.
Optimization depends much on outer temperature.
Next session's talk

Emittance in DR/EXT

From logbook 2014/12/2

DR emittance measured is stably around 10pm.

Still there is discrepancy between DR and EXT emittance.
