Status $H \to \gamma\gamma$ **,** $H \to \mu\mu$

C. Calancha
Regular Friday Meeting

January 16, 2015

Status

- Most of the week dedicated to hardware and software.

- Merging $H \to \gamma\gamma$ (500 GeV) final ntuple in categories (signal, main back, 2f, 4f, 5f, aa_4f, 6f).

- ILD mass production validation.
  - Working in close contact with ilcdirac experts debugging some issues.
  - I am able to running Prod. jobs locally now (i can Mokka random seed by hand).
- FPCCD: putting effort on the MIP analysis.
