

Overview on collaborations and Top@LC2017

Roman Pöschl

Top@LC2016 – July 2016 KEK Japan

THERE ARE THINGS
KNOWN AND THINGS
UNKNOWN AND IN
BETWEEN ARE THE -
DOORS. -

.. is the top quark

Jim Morrison
American singer-songwriter

QuoteHD.com

(1943-1971)

- Many individual efforts at institutes
- Top quark studies within concept groups
- Top quark followed up by LCC physics working groups
- Cooperation between different institutes
 - Munich, German Theorists
 - LAL, IFIC
 - IFIC many (DESY, Vienna, other Spanish institutes)
- Structures cooperation, i.e. With dedicated funding
 - Grant for top physics at Tohoku University
 - French-Japanese TYL/FJPPL, funding for mutual travel
 - Can this be extended to e.g. Spain, Germany, Austria, CERN,US, China, Korea, ...?

RANDALF may be a platform for that

Top workshop witnesses that there is a potential for an activity that comprises

41 registered participants this time

=> Collaboration 50-60 people (others may be attracted by structured approach)

- We may want to follow good examples of previous workshops and prepare a short write up
- Who?
- Maybe split up into different authors that each write 1 -1 1 1/2 page about a given set of topics

- Bid to host [Top@LC2017](#) by LCD group at CERN
- I see no reason to not accept this offer with pleasure!!!
- Time slot to be seen but end of June beginning of July is
Maybe a good choice
- Should start with organisation at the beginning of 2017
(maybe with a first short meeting at LCWS16)
