

ECFA Vienna gammagamma technology

Report of Contributions

Contribution ID: 1

Type: **not specified**

Stabilization of liminosity at the photon collider

Tuesday 15 November 2005 16:00 (10 minutes)

Primary author: V. TELNOV (BINP Novosibirsk)

Presenter: V. TELNOV (BINP Novosibirsk)

Session Classification: gamma gamma technology

Contribution ID: 2

Type: **not specified**

Crab crossing angle at the photon collider

Tuesday 15 November 2005 16:15 (10 minutes)

Primary author: V. TELNOV (BINP Novosibirsk)

Presenter: V. TELNOV (BINP Novosibirsk)

Session Classification: gamma gamma technology

Contribution ID: 3

Type: **not specified**

New results from beam simulation with CAIN

Tuesday 15 November 2005 16:30 (15 minutes)

Primary author: F. ZARNECKI (Warsaw University)

Presenter: F. ZARNECKI (Warsaw University)

Session Classification: gamma gamma technology

Contribution ID: 4

Type: **not specified**

Progress on the cavity laser

Tuesday 15 November 2005 16:45 (5 minutes)

Primary author: A. FINCH (Lancaster Un.)

Presenter: A. FINCH (Lancaster Un.)

Session Classification: gamma gamma technology
