

ECFA BDIR meeting

Tuesday 15 November 2005

BDIR I (09:00 - 10:30)

time	[id] title	presenter
09:00	[1] Beam Measurements using Compton Scattering	H-J. SCHREIBER
09:15	[2] Measuring the Beam Energy by means of Synchrotron Radiation	H-J. SCHREIBER
09:30	[3] NC four-lepton processes as background for luminosity measurement	I.BOZOVIC-JELISAVCIC
09:45	[4] Beam parameters for e-e- mode of operation at the ILC	M. ALABAU
10:00	[5] Systematic Effects for Lumi Measurement	A. SAPRONOV
10:15	[6] BeamCal Performance at different ILC designs	V. DRUGAKOV
