

# LC Vertex Detector Workshop 2017

## Tuesday, 2 May 2017

### Technologies II - Seminar Room (11:00 - 12:30)

-Conveners: Dominik Dannheim

time	[id] title	presenter
11:00	[20] Hybrid pixel detectors with active-edge sensors for the CLIC vertex detector	SPANNAGEL, Simon
11:30	[21] CMOS sensor developments for the CLIC vertex and tracking detectors	HYNDS, Daniel
12:00	[22] Test-beam analysis and TCAD simulations for capacitively coupled HV-CMOS sensors	BUCKLAND, Matthew Daniel
