# 2017 at MPI Munich

## Ron Settles

- Hopefully finished with Addendum 2016 to the LCTPC MoA (reason for the delay was that we were trying to find coordinators for the speakers bureau, for software, and for pixel, but with no success, This is pointed out in the Addeundum 2016.)
  - Working on, or will be working on:
- Addendum 2017 to the LCTPC MoA, identifying the above-mentioned coordinators; other documents that are requested from the collaboration, etc...
  - ILD optimization, TPC Issues
    - Task forces
