

LCWS 2017 Industrial Session

Hiroaki Takahashi
Chairman
Tohoku ILC Promotion Council, Japan

■ Tohoku ILC Promotion Council

- Established in 2009
- Objective: To bring the ILC to Japan.
- 210 members (from Industry, Academia, and Local governments)

■ General election for the Japanese House of Representatives held on Oct 22

▪ Executive members of the “Federation of Diet Members for the ILC” were re-elected to office.

Chairman
Takeo Kawamura

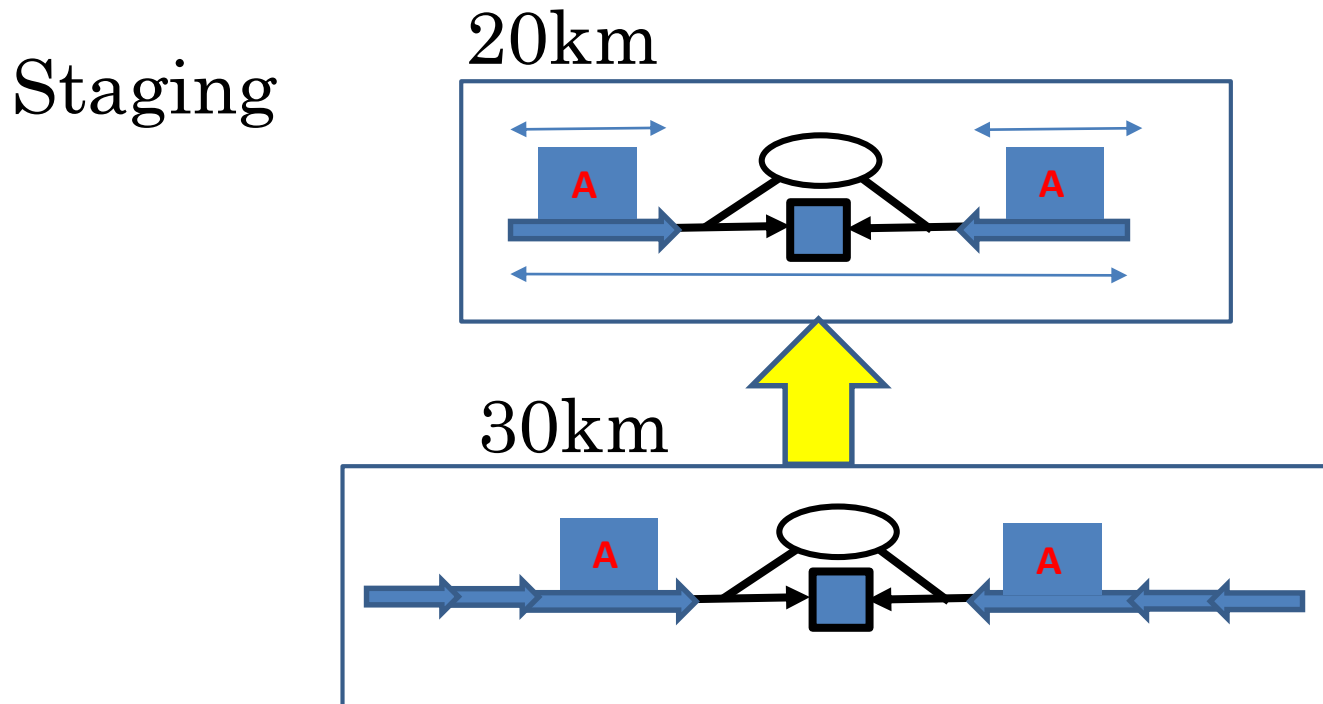

Vice Chairman
Shunichi Suzuki

Secretary General
Ryu Shionoya

■ Current situation for the ILC Project in Japan.

- Many government officials have shown a strong interest in the “Staging Strategy”.

■ Tohoku ILC Planning Office Activities

- Established in June 2016

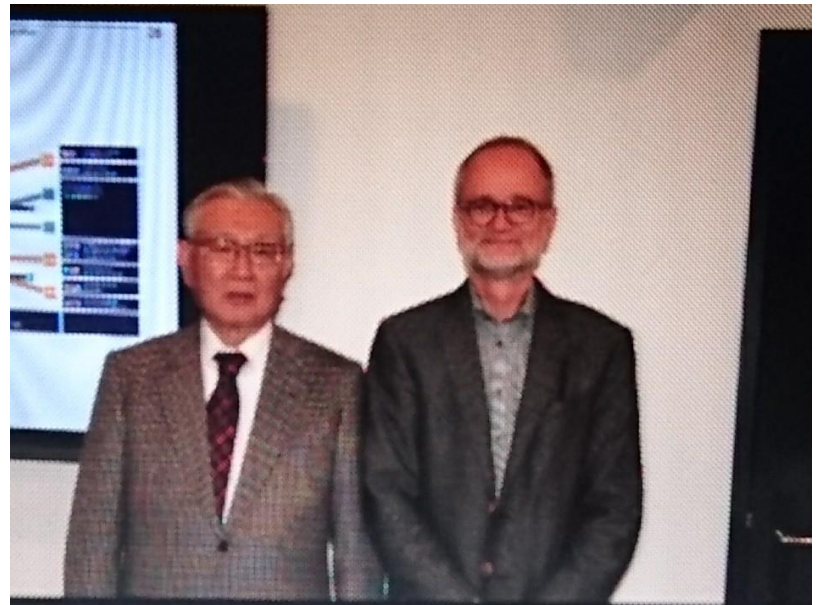

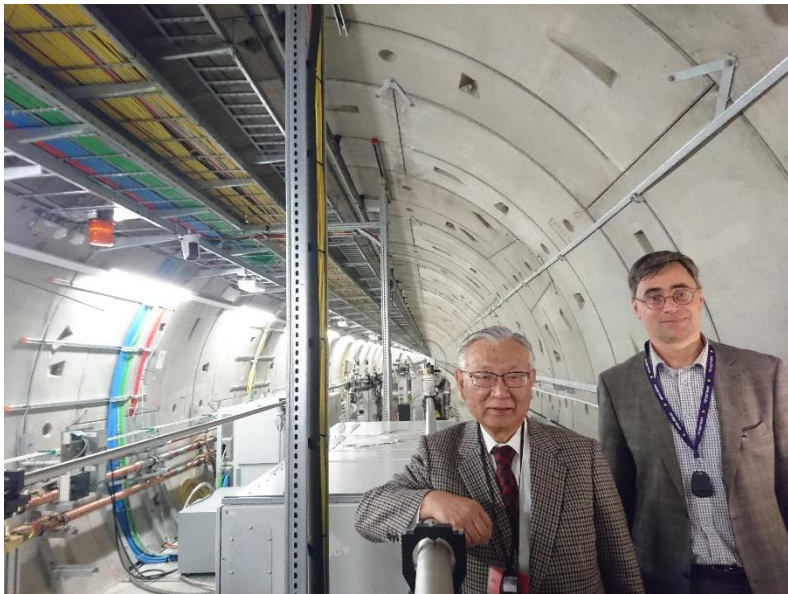

Dr. Atsuto Suzuki

In charge of Tohoku ILC Planning Office

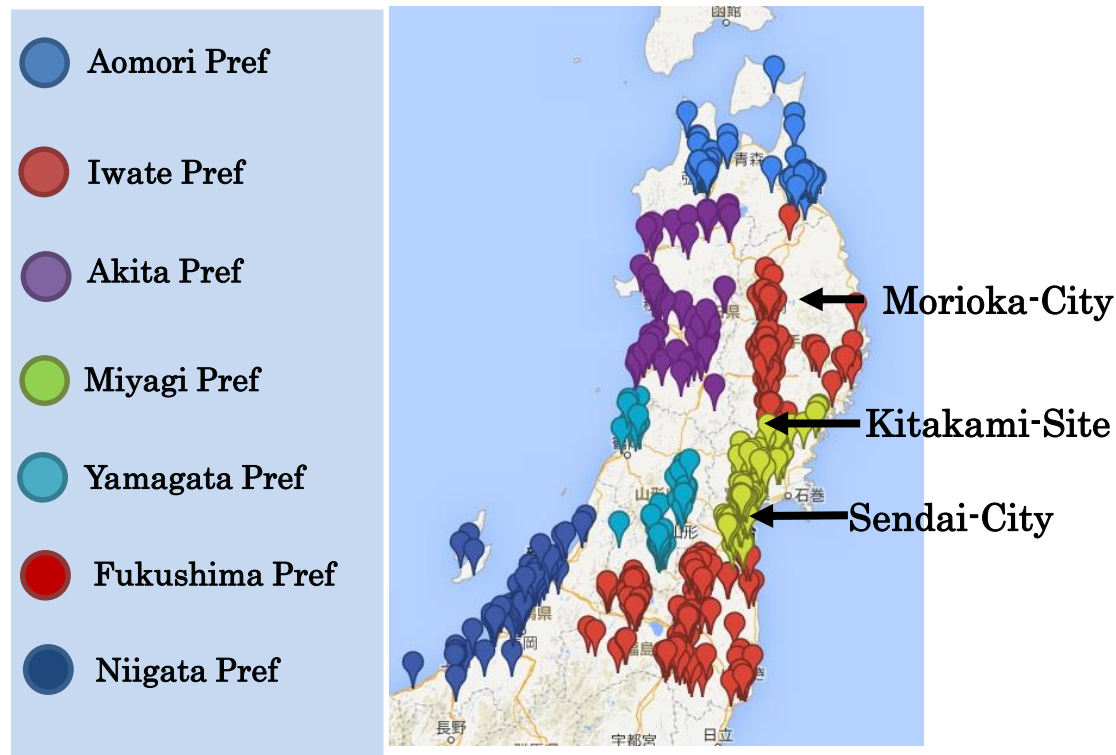

- Planning construction of facilities, acquisition of equipment and cost-reduction strategies
- Planning a comfortable and convenient living and working environment for scientists and families

■ Visit to DESY to see the European XFEL on October 23

- After viewing this state-of-the-art technology, I am convinced that there is a strong possibility that the ILC can be constructed in Japan.

■ Many independent companies which have accelerator-related-technologies are located in Tohoku.

More than 700 factories

■ Outstanding companies from Tohoku with expertise in accelerator technologies

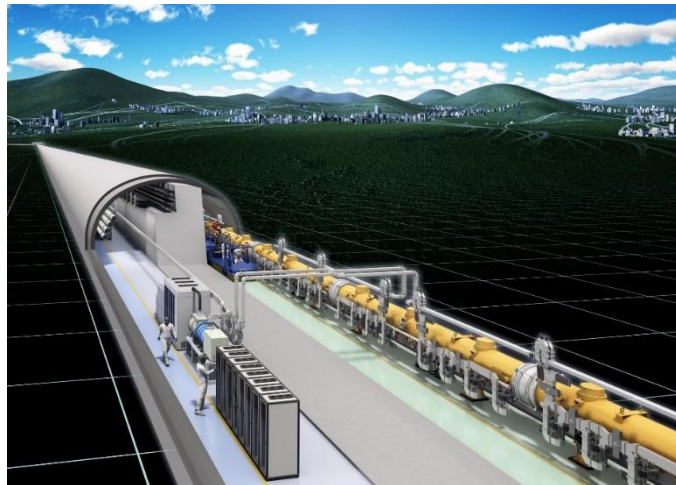

Yuko Akabane
President
TDC Corporation

Minoru Eto
President
Taiyo Kikai, Ltd.
Taiyo EB Tech, Ltd.

■ "Accelerating Innovation through the ILC"

- Close cooperation to achieve establishment of the ILC.
- ILC Project will lead to major advances and significant breakthroughs.
