

News from Saclay

P. Colas

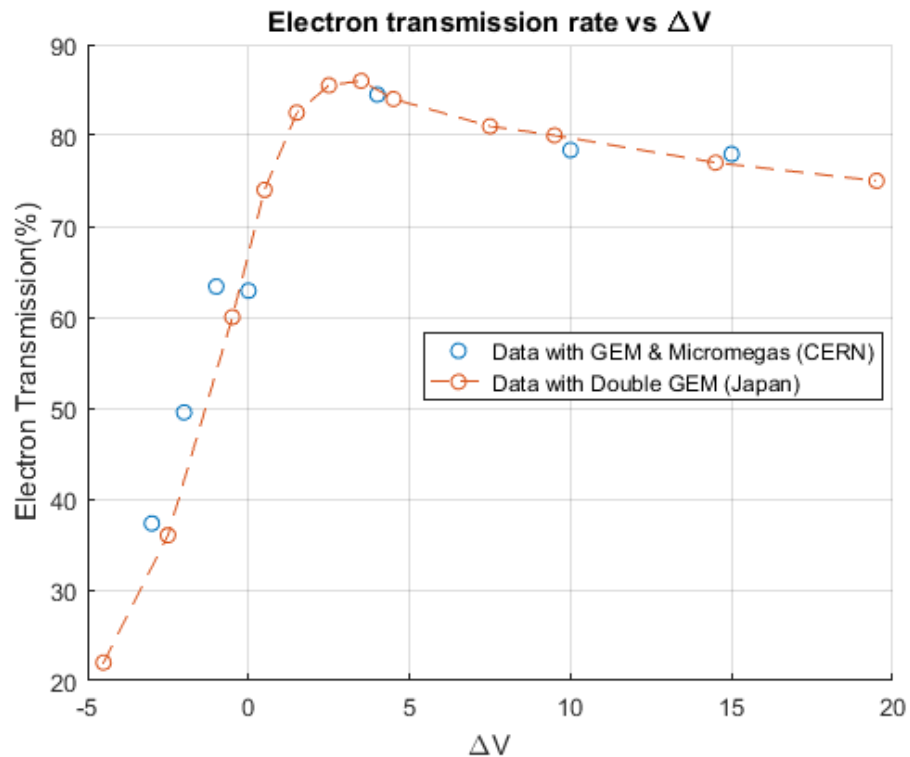

On-going activities

- Preparation for LCWS 2017 at Strasbourg (M. Titov, PC)... and LCTPC collab. meeting?
- Pierre Hemme's Master internship finished (May 15 to July 31, presentation last Tuesday)
- New LP modules with new mechanics (prototype of the electronics connexions received) and new grounding scheme (encapsulated resistive foil)
- Same, for T2K upgrade

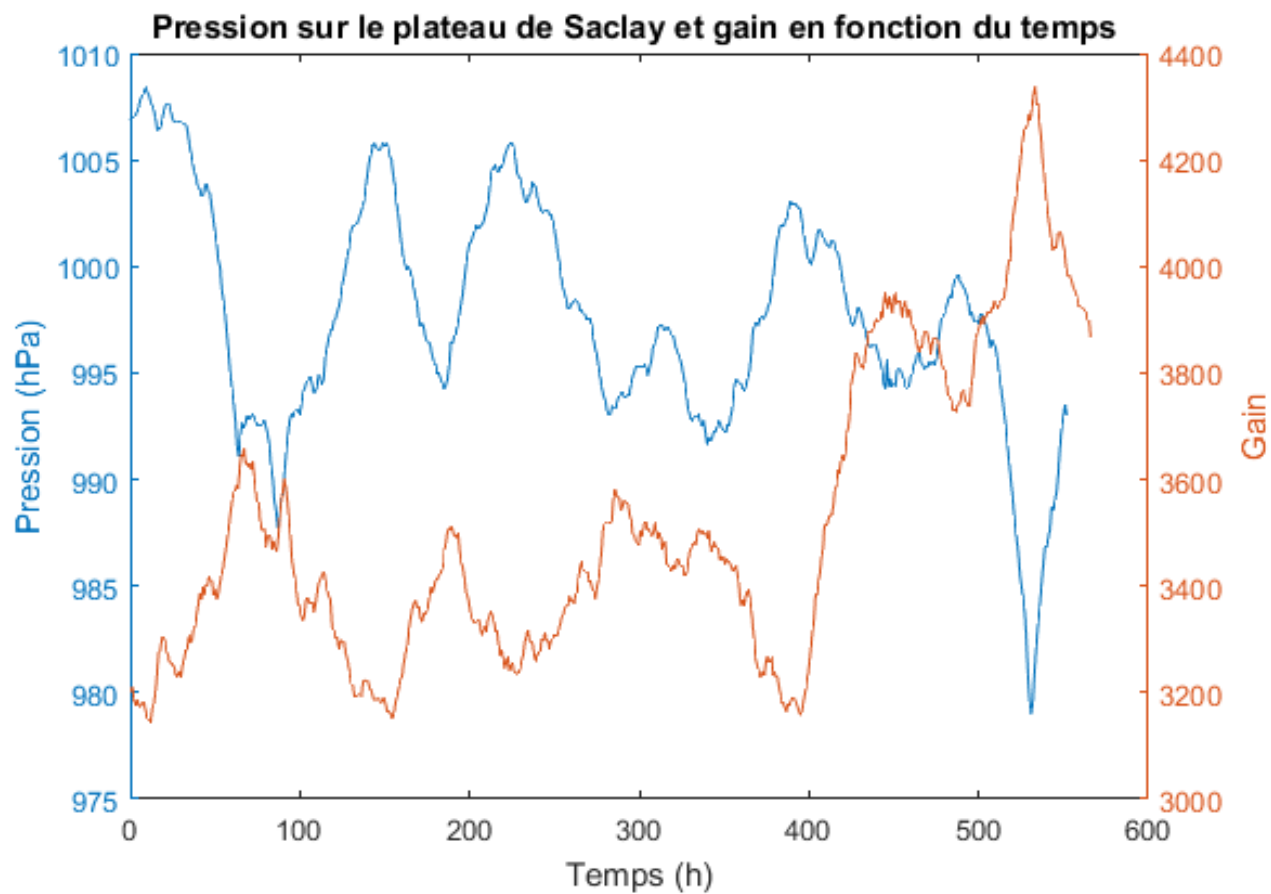

Highlights from Pierre Hemme's internship

(with contributions from K. Fujii et al., S. Ganjour, B. Tuchming, E. Oliveri,...)

Electron transparency
of a gating GEM

Gain-pressure anti-correlation (seen with the Saclay TPC in cosmics)

To be noted

- There will be a prospective meeting for Saclay Particle Physics mid-October. ILC is included in 'Colliders' with LHC upgrade and FCC.
