## ILD meeting June 1 & 2

### Tentative plan

## Asian Linear Collider Workshop 2018

May 28 - June 1, 2018 Fukuoka International Congress Center *Fukuoka, JAPAN*

ALCW2018 is the next in a series of regional linear collider workshops held around the world. The purpose of the workshop is the continued development of the physics case, and the advancement of detector and accelerator designs for a high energy linear electron-positron collider. The workshop will also provide recent information and discussion about the evolution of both the ILC and CLIC projects. It will have plenary sessions and parallel sessions, including meetings of detector concept groups.
