

Self-Introduction and Analysis of $H \rightarrow Z\gamma$ decay channel at the ILC

KAZUKI FUJII, THE UNIVERSITY OF TOKYO

Self-Introduction

- Name : Kazuki Fujii
- Affiliation : the University of Tokyo ICEPP Yamashita lab
- A study of the past : Experimental verification of gain reduction model for space charge effect in wire chamber
- Hobby : Aikido

H \rightarrow Z γ decay channel

SM : cross section is too small.

-> BSM : have to take into account

First analysis
