Proposal for a common module

Paul Colas, CEA/Irfu Saclay

- Homeomorphic to a rectangle with rectangular pads
- No staggerging
- 1.1 mm wide pads
- Assume 2^n channels

 8x8 modularity : 3x8=24 lines, 3x64= 192 columns

This implies up to 4608 1.1 x7 mm² pads

A frame of 8.8mm (in x) and 7 mm in (rϕ) can be left with no readout.
