

Asian Linear Collider Workshop 2018 (ALCW2018)

Tuesday, 29 May 2018

Vertex/Tracking - 409 (11:00 - 12:30)

time	[id] title	presenter
11:00	[201] On-going Development of CMOS Pixel Sensors and Emerging Fast Timing Perspectives	BESSON, Auguste
11:30	[202] An SOI monolithic pixel detector for fine measurement of space and time for the ILC experiment	YAMADA, Miho YAMADA, Miho
12:00	[203] Thermo-mechanical aspects of LC vertex detectors	VILLAREJO BERMUDEZ, Miguel-Angel VILLAREJO BERMUDEZ, Miguel-Angel VILLAREJO BERMÚDEZ, Miguel-Angel

Vertex/Tracking - 409 (14:00 - 15:30)

time	[id] title	presenter
14:00	[204] Status of the Belle II PXD construction	MARINAS, Carlos MARINAS PARDO, Carlos
14:30	[205] Commissioning of ILC-inspired CMOS pixel detectors (PLUME) with e+e- collisions from SuperKEKB	BAUDOT, Jerome
15:00	[206] LYCORIS, a large area strip telescope for the DESY test beam	WU, Mengqing

Vertex/Tracking - 409 (16:00 - 17:40)

time	[id] title	presenter
16:00	[178] Measurement of dE/dx resolution using electron beam	SHOJI, Aiko SHOJI, Aiko
16:20	[179] Measurement of dE/dx resolution with Micromegas	COLAS, Paul
16:35	[182] TPC R&D activities at DESY	WU, Mengqing
16:55	[180] Preparation of the technical choice for the TPC	GANJOUR, Serguei
17:10	[181] Performance evaluation of a GEM-based readout module for the ILC TPC with a large aperture GEM-like gating device by a beam test	Ms AOKI, Yumi
17:29	[240] Progress on IBF measurement and TPC prototype with laser calibration	QI, Huirong
