

International Workshop on Future Linear Colliders, LCWS2018

Tuesday, 23 October 2018

Warm RF 1 - San Saba (11:00 - 12:40)

time	[id] title	presenter
11:00	[200] Advances in normal conducting accelerator structures	TANTAWI, Sami
11:20	[201] CLIC XBox test stands: Performance and operational experience	PITMAN, Samantha
11:40	[202] Long-pulse, Ultra-high-gradient Radio-frequency Accelerator Structures – Better Performance through Smart Design, Manufacturing and Breakdown Suppression	KRAWCZYK, Frank
12:00	[203] Experience with long-term operation of high-gradient accelerating structures	MILLAR, Lee
12:20	[204] Fabrication of CLIC accelerating Structures and RF Components	SAUZA, Joel
